Doyle Brunson is one of the biggest poker players in the world. The hand Doyle Brunson (10,2) got its name from him after his remarkable second victory in the WSOP event with the same hand. Brunson has also written the book *Supersystem* and has his own online pokerroom called Doylesroom.com. [Doylesroom](http://Doylesroom.com) just recently moved from Tribeca to Microgaming since Tribeca dropped the American market and that was such a big part of Doyles business.
